Dear Julie,

Thank you from the bottom of my heart for the loving care you gave my mother over this last year. These were such strange and challenging circumstances for Mom and your humor and grace and generosity made all the difference to her — and were a deep comfort to my brother, sister and me. I am very

grateful to have found your wonderful community when I did — I can't / won't imagine what this year would have been without you and your wonderful team — caregivers in the truest sense of the word. I miss Mom so much.

She was my weekend lunch date for 5 years — I'm lucky to have had this time with her.

I know she's resting in peace.

With love + gratitude, Leigh
