Dear Julie & staff,

I hope you and your wonderful crew of caregivers have a wonderful Christmas! You made Jane's last days so much better than otherwise could be. The degree of Love you gave to Jane also made my life much easier to live. You have earned the title "Leader of Angels."

You have earned the Trust and Love of all you care for. I will always be grateful for all you did for Jane, me and my family. Keep the sun on your face, the wind at your back and continue to always let the world feel all the love you are capable of sharing. Dick MacInnes
